

Making a Tissue Paper Flower Bouquet

Hello Crafters

Here are the instructions for making tissue paper flowers below. Although there are loads of great ideas out there. Many using simple household items like paper cake cases.

These ones use tissue paper and pipe-cleaners!

They are very simple and little hands can join in to make their own. Maybe a gift for someone? Even if you can't visit, could you send a photo? Post them? Or take them and leave on the doorstep?

Once you've made a few you could tie them in a bouquet with paper and ribbon.

Best wishes, Sara
